

Prit Desai

Columbus, Ohio | +1 614 822 5785 | pritedesa@gmail.com

Summary

Aspiring Backend Engineer with hands-on experience as a Backend Developer Intern at prominent tech firms. Expert in developing and optimizing APIs and server-side systems using frameworks like Django REST and Express.js, with significant improvements in data processing efficiency. Proven ability in deploying scalable solutions using cloud platforms like Microsoft Azure. Ready to leverage technical skills and problem-solving expertise to drive backend development projects.

Education

University of Texas at Arlington

Master of Science, Computer Science (GPA: 3.333)

Aug 2023 - Aug 2025

Arlington, Texas

SVKM's NMIMS University, Mumbai

Bachelor of Technology, Computer Engineering (GPA: 3.06)

Aug 2016 - May 2023

Mumbai, MH, India

Technical Skills

- **Programming:** Java, Javascript, Python, SQL, HTML, CSS, C, C++, PHP
- **Frameworks & Tools:** Node.js, Express.js, Firebase, Firestore, Bootstrap
- **Databases:** MySQL, Firestore
- **Software & Platforms:** IntelliJ IDEA, PyCharm, Android Studio, Anaconda, Eclipse
- **Soft Skills:** Leadership, Communication, Teamwork, Adaptability

Experience

Infinitrix Global | Software Developer Intern

Jun 2022 - Nov 2022

- Developed interactive front-end interfaces using HTML, CSS, and JavaScript, enhancing user navigation and interface responsiveness
- Designed a dynamic personalized Welcome Page, improving user engagement by 30%.
- Integrated Firebase to streamline real-time data management and reduce load times by 25%.

63 Moons Technologies | Backend Developer Intern

Dec 2020 - May 2021

- Led backend development for an eKYC workflow system used by 5,000+ users.
- Built RESTful APIs using Express.js, reducing data processing latency by 40%.

GBCS Group LTD - SkyIT | Backend Developer Intern

Nov 2025 – Present

- Developed and optimized backend services and APIs using Django REST Framework and Express.js, improving response efficiency by 28%.
- Built scalable server-side systems and implemented data storage solutions using MySQL, PostgreSQL, and MongoDB, increasing data throughput by 18%.
- Deployed and monitored backend applications on Microsoft Azure, reducing deployment time by 35% using CI/CD automation.

Projects

Hand Gesture Recognition

- Implemented hand gesture recognition using classical ML (KNN, SVM with Hu Moments and convexity defects) and deep learning (ResNet18).
- Achieved 98.98% accuracy on a dataset of 24,000 images, outperforming traditional methods (~93%).

Hype Beast Info

- Developed a fashion-trend website showcasing the latest sneakers and clothing.
- Implemented a responsive UI for seamless browsing across devices.

Text Guide

- Built an Android app to help farmers translate legal documents and product labels into their preferred language.
- Integrated OCR for text recognition and Firebase for real-time database management.

Book Cart

- Created a mobile app that enables users to search, browse, and access library books.
- Developed database integration for efficient book retrieval and cataloging.

Certifications & Awards

- **Java Programming Masterclass:**Udemy
- **Web Development Masterclass:**Udemy
- **Winner:**Poster Presentation, Enviro-Tech 1.0

Publication

- Khadka, A. & Desai, P..Comparative Evaluation of Traditional Machine Learning and Deep CNN Models for Static Hand Gesture Recognition.2025. Computer Science and Engineering Student Research Series, No. 2. University of Texas at Arlington
